Subject: Microsoft Settlement

To Whom it May Concern;

I really think this has gone on to far. I think AOL is using this to much to there advantage. Doing anything to Microsoft will hurt the economy especially in the US. Microsoft is the ultimate example of Capitalism and allowed to continue to contributed to our overall success in the market place and as a country. Can we just even settle on the agreed upon terms and move on?

Further this suite filed by AOL is a cold vicious attack on its competitors over an issue that had already been settled.
